4th DIHM Summer School 2017

Analysing Communication in Healthcare Settings

Hosted by the Doctoral School of Humanities, Aalborg University
In collaboration with Danish Institute of Humanities and Medicine (DIHM)

This intensive course is specifically targeted at researchers and professionals within the broad healthcare field. The course will offer exposure to different analytical frameworks, covering micro and macro perspectives on both oral and written data in a range of healthcare sites. Each day is divided into presentations from the course leader followed by group work involving a practical hands-on approach. There will be opportunities for participants to discuss their ongoing research (in the form of data sharing and consultations), and those who are at an advanced stage of their research are encouraged to bring along a poster for display during the Summer School.

Course leader:
Professor Srikant Sarangi
Director, Danish Institute of Humanities and Medicine (DIHM)
Aalborg University, Denmark

Time:
7-8 September and 11-13 September 2017

Venue:
Aalborg University
Kroghstræde 3, room TBA
9220 Aalborg Øst
Denmark

ECTS:
Full participation covers 5 ECTS.

Fee:
The DIHM Summer School is free of charge as are lunches, tea/coffee, fruits and snacks.
